

**FULL-TIME POSITION****Website Programmer/Developer**

Downtown Chicago

Overview

A cutting-edge branding communications agency in Chicago has an exciting and challenging opportunity for a Website Developer with at least 2 years of professional experience.

Job Description

You'll be required to work with UpShift's creative teams to build and edit websites using HTML, CSS, CMS, and database code development.

Requirements

- Develop web sites using ASP or PHP, jQuery, (x)HTML, CSS and databases based on creative team's design/layouts.
- Able to take designers files (layered PhotoShop documents or InDesign layouts) and accurately convert to programmed web site.
- Build sites and implement client-friendly Content Management System (CMS) so clients can easily make future updates to the sites.
- Create HTML emails.
- Optional--Experience in e-commerce, WordPress, mobile web sites, HTML5.
- Be involved in website maintenance, website usability and ensure that the clients' brand is strengthened.
- Continually work on learning HTML5, CSS3 and other web technologies.
- Candidate should be self motivated, organized and able to manage own schedule
- Willing to contribute to the team and bring new ideas to the table, and can speak English well as candidate will have to interface with clients from time to time.
- Ideally, we seek a creative thinker with a good design sensibility, not just a programmer.

ABOUT OUR FIRM:
